
Lia Neville

Fullstack Developer

(706) 631-2506 • lianeville.com • lianevemployment@proton.me

SKILLS

Frontend: React, Svelte, Typescript, TailwindCSS, Three.js, Bootstrap, jQuery

Backend & Devops: Node, MongoDB, PHP, Python, SQL, AWS, Docker, Express

EXPERIENCE

Vouch - *Lead Frontend Developer*

JAN 2023 - JAN 2024

- Increased mobile user engagement with a mobile-first redesign and responsive grid layout using **TailwindCSS**.
- Reduced technical debt with a modular codebase and component-based architecture using **React**.
- Enhanced application **accessibility** by adhering to WCAG guidelines and implementing ARIA roles.
- Developed a custom theme, solidifying the brand image and enabling consistent branding across the application.

Docket Inc - *Fullstack Developer*

AUG 2021 - JAN 2023

- Overhauled pages and developed a customizable drag-and-drop dashboard, enhancing user experience using **PHP** and **jQuery**.
- Reduced file sizes and improved maintainability with **SCSS** optimizations and modern CSS preprocessing techniques.
- Implemented profile picture management with **AWS S3**, enabling personalized experiences and scalable storage.
- Enhanced **PHP** logging mechanisms to facilitate better error tracking and debugging, ensuring comprehensive logging of objects and arrays for easier troubleshooting.

EDUCATION

Clubhou.se - *Computer Science Bootcamp*

MAY 2021 - AUG 2021
